**River play at Shakunageno mori**

We recommended you play at the river because it is too hot to play at a beach in the summer. There is a parking lot and you can take a dip or relax by the river side. Visit here with caution after heavy rains as like many of Yakushima's rivers, it is prone to flash floods.

**Turtle egg-laying and hatching.**

It is 25 min drive and 16.7 Km from our place. It is very hard to find the place, so we recommend you measure the distance by the meter of your car. Please turn left at 16.7 Km point from our place, there are red and white fishing boats on the ground on your left. There is a parking lot and a beach just up a few stairs.

Egg-laying: Mid-May to End-July.  
Hatching: Mid-July to End-Sep.  
Time: 20:00~24:00 (depends on the day)

Parking lot  
Shower  
Picnic shelter

Good for kid's play, snorkeling and collecting some shells.

**Snorkeling and Collecting some shells**

Please turn left at the sign of Youth Travel Village 30 min drive from our place. And there is a parking space after you turn left at a trifurcate-road. There is a store in Kurio village for lunch box and some drinks.

**Yokko Valley**

Yokko Valley is located just on the opposite side of island.

There is the best valley to dip in the crystal clear water. It is chilly even on very hot days in the summer.

Please visit here with caution after heavy rains as like many of Yakushima's rivers, it is prone to flash floods.

There is a home-made hamburger restaurant "Mam's kitchen" for lunch. There are many English books, and you can relax and enjoy on comfortable sofas.
